

Peninsula Community Pickleball Club Mandate and Vision

PCPC is a community-minded, socially responsible pickleball club that prioritizes mutual respect and kindness over competition.

The Peninsula Community Pickleball Club has created an organized play model unlike any other. Club membership grants community members access to curated pickleball play opportunities at a variety of club reserved indoor and outdoor venues around the peninsula year round.

All play levels are welcome. Beginner, intermediate and advanced players are equally supported with ongoing play opportunities and community lessons.

PCPC routinely connects with local municipal government agencies and community stakeholders to advocate for pickleball courts on the Peninsula.

Our vision: To become a reliable provider of frequent, convenient, fun, and cost-effective play opportunities all year round for players of all levels within five years.
